

Hybrid and Electric (EV) Cars at Loton Park Hill Climb 2023:

Motorsport UK are continuing to develop both Technical and Safety Guidance for organisers of Speed Events for the running of Hybrid and Electric Cars.

Hagley & District Light Car Club, having reviewed the latest Motorsport UK Electrified Vehicles (EV) Guidance for Organisers (14/03/23) find we are currently noncompliant.

We are therefore unable to accommodate such vehicles at either our competitive Hill Climbs or at any of our Driving Schools events for the 2023 season.
