Note 1: Vehicles competing in Class 9A must comply with the appropriate Motorsport UK Formulas Ford Regulations.

Note 2: To be eligible for 12A and 12B, vehicles of monocoque construction and those with rear wings will be allowed, provided they were standard on the car at the appropriate date. Wheel rim width may be increased by no more than 25mm, but period style must be retained. The use of slick tyres is prohibited. The type, size and tread of tyre must remain the same throughout the meeting. Post 1945 cars must run on treaded tyres which may be road tyres complying with the Motor Vehicles (Construction and Use) regulations, or racing tyres provided the latter have grooves in the tread pattern which must be lateral and circumferential and any 40mm diameter area of the tyre must have grooves in at least two different directions, which themselves must have a minimum width of 3mm.

Note 3: Except for those entered in a specific championship or club class, all Caterhams, Lotus Sevens, Westfields etc. complying with (S)12 and (S)13 of the Motorsport UK Yearbook will enter classes 2 or 4. All other cars of this type which do not comply with above will enter classes 5 or 6 and comply with the relevant safety regulations.

Note 4: As a further reference I refer you to Environmental Concerns - paragraph 5 of the 2023 Non-Race Car Championship Sporting and Technical Regulations : which now states - **THAT THE USE OF THESE PLASTIC WRAPS IS PROHIBITED** - referring to 'single use' plastic tyre wrapping.

Note 5: Regulation S10.11.4 (2024 Year Book) Display registration plates in compliance with the current Road Vehicles (display of Registration Marks) Regulations, may, during competition ONLY, be suspended at the discretion of the Clerk of the Course.

Note 6: Regrettably we are unable offer a Class for standard Road-going Electric Vehicles for the 2024 season. However, we remain hopeful to be able to do so in the future.
